📍 Alhufayrah District, AlHafuf,  
AlAhsa, Saudi Arabia

## Professional Summary

Dedicated and highly skilled Physician with over a decade of robust clinical experience spanning Emergency Medicine, Trauma Care, and General Surgery. Proven track record of leadership as a Trauma Team Leader within the AlAhsa Health Cluster. Adept at managing high-acuity clinical environments, executing surgical procedures, and leading multidisciplinary teams. Holds a Master's in Family Medicine and maintains active professional licensure in both Saudi Arabia (SCFHS) and Sudan. Combined background in clinical practice and academic instruction (Anatomy) provides a strong foundation for evidence-based patient care and medical education.

## Work Experience

### AlOmran General Hospital, AlAhsa Health Cluster

Resident Doctor – Emergency Medicine

07/2022 – Present | KSA

- Deliver comprehensive, high-acuity emergency care in a fast-paced community hospital setting.
- Rapidly stabilize, diagnose, and manage critical medical, pediatric, and surgical emergencies.
- Coordinate seamlessly with multi-specialty teams for timely admissions, transfers, and definitive care.

### King Fahd Hospital (KFHH), AlAhsa Health Cluster

Trauma Team Leader (TOP Program)

06/2024 – 12/2024 | KSA

- Supervised by Dr. Mohammed Marae Asiri
- Led multidisciplinary trauma activation teams during the resuscitation and initial management of severe polytrauma patients.
- Directed advanced airway management, fluid resuscitation protocols, and emergency bedside procedures.
- Optimized team communication and crisis resource management (CRM) to improve door-to-CT and door-to-OR times.

### Sea Port Corporation Specialty Hospital & Port Sudan Teaching Hospital

Resident Doctor / Medical Officer – General Surgery & Emergency

04/2014 – 10/2017 | Sudan

- Managed surgical wards, intensive care units, and emergency surgical admissions.
- Performed and assisted in a wide range of emergency and elective general surgical procedures.
- Conducted daily clinical rounds, formulated treatment plans, and provided post-operative care management.

### Faculty of Medicine, Red Sea University

Anatomy Tutor

12/2012 | Sudan

- Delivered interactive anatomy lectures, demonstrations, and academic instruction to undergraduate medical students.
- Prepared and evaluated continuous assessment examinations and OSCE stations.
